Exciting times for Bow View Ringette!

A big thank you to everyone who has registered in this great game, who has put their name forward to help during evaluations, and to our prospective Coaches for stepping up.

I wanted to let you know about an exciting opportunity for ringette in Calgary. Bow View has submitted an Expression of Interest, in response to the City of Calgary's solicitation for an Operator of Great Plains Recreation Facility. This includes ice and meeting room scheduling/operations, concession and janitorial services.

The Bow View Board held a rapid response meeting and decided as an association this could be a significant opportunity for ringette.

After evaluating the Expressions of Interest, the City will then decide if and when to move forward with a more formal RFQ process (Request for Quotation). The potential engagement required for the tender process is significant.

Bow View will potentially be looking for people with relevant skills to form a committee to put this tender together. Over the next few weeks, while you're watching your child participate and perform at their best during evaluation season please give some thought to this and whether you have the skills and experience required in putting together a tender proposal. If we are invited to participate in the RFQ process, we will be in contact with our membership, seeking qualified folks to help with this exciting opportunity.

Yours in Sport,

Dwayne Earle
President
Bow View Ringette Association
