Please remember to leave the remote control, and please disconnect the small plugs on the side of the clocks prior to packaging. Please put the extension cords below the time clocks.

- If you enter the arena from the rear parking lot: The White Box is located on the left wall, just before you approach the hallway for the dressingrooms.
- If you enter the arena from the front parking lot: Walk into the arena as if you are going to the dressing rooms. As you turn left toward the dressing room hallway- the white box is on the east wall opposite the ice.

Located in the Program Room in the back of Rink 2 (South Rink). Please ask at the office or find the rink attendant and they will unlock the Room to access the portable clocks. The Bow View blue box is located just inside the room on the right. Since we have mounted clocks in both Great Plains Arenas, these shot clocks are for use at other locations when required. These are the newer clock models and the remote does not require a "hard" push of the button. If the button is pressed and gets stuck within the remote, the function will not be predictable, and repair will be required.

Walk into Arena and go to second door to get to the rink. Turn right, box with blue lid is located in the corner on the right. Note the closer door to that corner only enables exit from the rink not access.

Please remember to leave the remote control, and please disconnect the small plugs on the side of the clocks prior to packaging. Please put the extension cords below the time clocks.

Enter the arena from the front parking lot. Once inside, head down the ramp towards the admin desk for the gym/swimming pool. The clocks are in the storage room beside the rink at the bottom and are locked. Someone at the admin desk will be able to unlock and provide access. Turn left and walk through the arena door. Once inside the arena, turn left again and enter the storage room. Look to your left and the unpainted box can be seen on the floor in the corner.
